

Our Focus is Your Testing Needs

- We specialize in water, wastewater and waste characterization testing.
- We make your job easier:
 - no delays
 - no missed hold-times
 - we meet or exceed project quality objectives
 - no hidden fees or charges
 - we use only NELAC, ASTM, USEPA and KDHE approved methods
 - we provide correct containers and preservatives
 - we include electronic COC, EDD, results reporting
 - we deliver supplies right to your site
 - our staff are knowledgeable, experienced, and highly trained
- We offer a full range of approved testing methods for compliance monitoring, including NPDES, UST, waste profiling for landfill, and drinking water, plus access to a network of labs in other disciplines.
- We have been recognized by major cities, small towns, industrial, energy, transportation, and engineering firms across the country.
- We use only the highest quality, environmental friendly supplies and chemicals.
- We are a drug-free company.
- We maintain your testing results history for you at no charge.
